1. General Questions

1.1. How can I contribute?

There are many ways that you can help:

- You can help us implement missing features that are needed in order to comply with the standard. See the <u>Standards Compliance</u> for more details.
- You can help us address bug reports. See bugzilla for more information.
- You can help support our user base by answering questions on the fop-user mailing list.
- You can help us document FOP better.

2. Documentation

2.1. How do I get the javadocs for FOP?

Currently, the only way to get FOP javadocs is to <u>Download the source code</u> and then <u>Build FOP</u> using the ant build task "javadocs".

2.2. Where can I learn how the FOP docs and web site are built?

See FOP <u>Doc Management</u>.;-)

3. Further Help

3.1. I don't see my question addressed here. Are there other FAQs?

Yes. See also the FOP General FAQs.
